

IONIZERS

The distinguished High Frequency series of ionizers are greatly superior to traditional AC and DC static eliminators in auto-balance, high efficient static elimination capability and stable character. In addition, its smaller size and lighter weight have made it more convenient to use and it has become the latest static elimination technology available today. Special alloy discharge needle is durable and very easy to maintain and keep clean due to simple clip-on covers. All ionizers are CE approved.

BENCH TOP IONIZERS

Compact size with auto-ion balance within 5 volts. Equipped with out-of-balance alarm indicator. Very simple to use and routine maintenance is performed with ease. Includes mains power supply lead/transformer. 24V operation.

- 75-KS10H** Small Ionizer.
102 x 120 x 58mm deep.
- 75-KS21H** Ionizer.
142 x 170 x 80mm deep.

HORIZONTAL AIR IONIZER

This quiet ionizer has adjustable blowing angle and air volume. It has an auto ion balance system within 5volts. It is equipped with an ionization indicator light and HV abnormality alarm indicator light. Very simple to use and maintain. Includes mains power supply lead/transformer. 24V operation.

- 75-KS50H** Horizontal Ionizer.
Size 465 x 178 x 75mm deep.

HAND ION GUN AND POWER SUPPLY

Suitable for ionization of large area as a great amount of ions ensure rapid elimination of static electricity and contaminations. Fully shielded HV cable without magnetic interference. (Requires compressed air supply).

- 75-KSAG1** Ionizing gun.
75-KSAV5000 Power supply.

OVERHEAD IONIZERS

Light, quiet, high performance overhead ionizers to ensure a static free work area. These units have built in auto balance feature with an out-of-balance alarm. All ionizers are CE approved.

OVERHEAD IONIZER 3-FAN

The three fans are independent of each other with individual controls and circuitry. Very easy to clean and maintain due to clip-on fan covers. Auto ion balance +/-5V.

75-KS120H 3-FAN IONIZER. Size 1000 x 145 x 65mm.
Includes mains power supply lead.

OVERHEAD IONIZER 4-FAN

For ionization of large workstation. Highly efficient four fan ionizer ensures a static free work area. The four fans are independent of each other with individual controls and circuitry. Very easy to clean and maintain due to clip-on fan covers. Auto ion balance +/-5V.

75-KS130H 4-FAN IONIZER. Size 1200 x 145 x 65mm.
Includes mains power supply lead.

CALIBRATION / BALANCING / SERVICING / SPARES. For the electronics industry it is essential that ionizers are in perfect balance. Balancing and calibration are available together with a complete servicing capability. Balancing is done using a CHARGE PLATE MONITOR.

For information on charge plate monitor set, please see page **23**
